

# BONZ Coin Whitepaper

## Executive Summary

BONZ Coin is a community-powered cryptocurrency built to reshape how musicians and fans connect without middlemen, gatekeepers, or broken industry systems. At its core, BONZ gives artists the tools to earn directly from their supporters and gives fans the power to support who they love all through decentralized tech.

While other projects focus on staking, lockups, or hype, BONZ is designed to be used, not just held. No complex DeFi hoops. No artificial scarcity. Just real transactions, real value, and real rewards.

Whether it's buying concert tickets, tipping an artist directly, or unlocking exclusive merch and experiences, BONZ makes it all possible on-chain, open, and fair.

We believe in putting the power back into the hands of creators. If you believe in that too, then you're already part of the movement.

## Introduction & Vision

The music industry has always been loud, rebellious, and full of energy but the systems behind it haven't changed in decades. Artists still rely on platforms that take huge cuts, middlemen who control distribution, and outdated models that leave fans disconnected from the people they love.

BONZ Coin was created to break that cycle.

We're building a decentralized ecosystem where musicians and fans are in control. No record labels, no ticketing monopolies, no corporate gatekeepers. Just a token that lets you transact, support, and engage peer-to-peer, wallet-to-wallet, heart-to-heart.

BONZ isn't about overnight riches or staking gimmicks. It's about putting power in your hands: to create, connect, and build a new music economy together.

## Token Utility & Use Cases

- Ticketing & Live Events
- Merch & Digital Goods
- Tipping & Fan Support
- Unlockable Experiences
- Artist-to-Artist Collaboration
- Fast, Cheap, and Transparent

# BONZ Coin Whitepaper

## Roadmap & Milestones

### Phase 1: Foundation & Launch

- Smart contract development and audit
- Token creation and presale
- Initial community building (Discord, social platforms)
- Liquidity pool setup
- Website and whitepaper release

### Phase 2: Ecosystem Growth

- Public launch and DEX listing
- Artist onboarding + band signup campaigns
- Community incentive programs
- Integration with merch platforms and basic tipping tools
- Brand partnership outreach

### Phase 3: Real-World Utility

- Ticketing platform integrations
- Artist dashboard tools
- NFT-based unlockable content
- Fan leaderboard and reward structure
- Mobile-friendly BONZ wallet interface

### Phase 4: Expansion & Decentralization

- Governance setup
- Cross-chain bridge research
- International artist outreach
- BONZ marketplace prototype
- Additional utility use cases

## Tokenomics & Allocation

Total Supply: 8,675,309,000 BONZ

Presale 35%

Funds launch, liquidity, and early operations. Fair public access no insider deals.

Liquidity Pool 35%

# BONZ Coin Whitepaper

Locked upon launch to support stable and honest trading.

Artist & Fan Incentives 10%

Distributed through giveaways, engagement rewards, and unlockables.

Marketing & Partnerships 10%

Used for promotional efforts and ecosystem growth.

Treasury 5%

Reserved for future tools and ecosystem development.

Team Allocation 5%

Vested over time to ensure long-term alignment.

## Presale Terms & Participation

Allocation: 35% of total supply (3,036,358,150 BONZ)

Format: Public presale via <https://bonzcoin.io>

Chain: Solana

Minimum Buy: \$20 USD

Maximum Buy: \$5,000 USD

Token Claiming: Distributed upon presale close or launch

Liquidity Lock: 12 months

Were committed to fair access, no rug pulls, and full transparency.

## Team Overview

The BONZ Coin project is led by a team of experienced professionals based in the United States, combining over two decades of expertise in both the financial and music industries. The core contributors have held senior roles in finance, trading, compliance, and product development at established institutions while simultaneously maintaining deep roots in the music scene as performers, touring musicians, and creative collaborators.

This unique blend of experience allows BONZ to operate at the intersection of decentralized technology and real-world music economics, with a mission to build tools that empower artists and fans alike.

While the team has chosen to remain unnamed at this stage due to ongoing involvement in both traditional

finance and the music industry, all official communications are published through verified BONZ channels. This policy ensures full transparency, equal access to project information, and eliminates the potential for private agreements or off-market arrangements.

We believe that transparency in process is more important than personality-driven hype. BONZ speaks through action, product, and community not personalities or influencers.

## **Disclaimer & Legal**

BONZ Coin is a community-driven project and not an investment vehicle. There are no guarantees of returns, and the value of BONZ may fluctuate. Participation in the BONZ ecosystem is voluntary and should be based on personal belief in the projects mission and long-term vision.

This whitepaper does not constitute legal, financial, or tax advice, nor is it a solicitation to buy or sell securities. All participants are encouraged to do their own research and consult appropriate professionals before engaging with BONZ Coin or participating in the presale.

BONZ Coin is built on the Solana blockchain. Users are responsible for securing their wallets, safeguarding their assets, and complying with local laws and regulations in their respective jurisdictions.

By participating in the BONZ presale or using BONZ tokens, you agree to these terms and acknowledge the risks involved in any blockchain-based system.
